NXPlus+™

Grow your photo business with DNP's easy retail solutions.

Easy-to-Use

The intuitive interface lets customers easily liberate their cherished photos from digital storage and transform them into beautiful prints.

Low Investment

DNP is redefining the retail print business with a cost-effective solution in NX Plus+. A fun user experience that is sustainable and low investment to you, the retailer, are the building blocks of NX Plus+.

Convenient

Add your choice of computer, terminal, or touchscreen. Decide if you start with our most economical DS620A, RX1HS or DS40, and add the DS80 for 8" enlargements.

Flexible

All of the "must-haves" are built into NX Plus+ including a variety of printing options, automatic image correction, color adjustment and various creative projects such as borders, collages, decorations, rolling stamps, and drawing.

Use the NX Plus+ software as the starting point and add any combination of DNP printers and computer. The easy, fast, cost-effective way to offer Digital Prints on Demand™!

For smaller retail stores, a laptop and our most economical DS-RX1HS printer allows you to instantly offer 4"x6" prints up to 6"x8" enlargements.

A touch screen configuration is ideal for medium retail stores. If faster printing speeds and enlargements are a must, utilize our award-winning DS620A or DS80 printer.

As your business grows to larger volumes, a multi-printer kiosk solution may be right for you. Still the same NX Plus+ software with one or more DS620A for standard prints and a DS80 for 8"x10" enlargements.
