DS80DX™

THE MOST VERSATILE DYE-SUBLIMATION DUPLEX PRINTER ON THE MARKET!

DS80DX™

Profitable

Increase your profitability utilizing the single or duplex capabilities of the DS80DX. DNP's award-winning design delivers reliability and high performance proficiency assuring you a maximum return on your investment.

Flexible

Print premium quality simplex or duplex photos. The printer is optimized to give your customers the vibrant colors they demand. Mini photobook software is included to get started right out of the box.

Easy-to-Use

The DS80DX has an ergonomic design for easy-access front loading of media. Once the paper is loaded, you're ready to go!

High Quality

Print premium professional quality photos, photo calendars, and photobooks in stunning matte or glossy finish. A powerful printer control engine designed to maximize image quality and gives your customers the vibrant and robust color spectrum they demand.

Be Your Own Boss:

With DNP's duplex printer, you decide which photo products to offer. Crisp colors in customized greeting cards, calendars and even photobooks. Produce on-site, premium quality photo products in a variety of formats. The DS80DX duplex printer also offers single-sided photos. It does both—single and double-sided photos.

DNP's unique 2-piece design offers service flexibility.

DNP's software is included to help you create unique mini photobooks: Instagram®- like square 4"x4", 4"x8", and 6"x8" — a 4"x16" image spread across two 4"x8" pages. The program will also automatically lay out the book based on your photo selections.

These size formats maximize the printer's capability to use a single double-sided 8"x12" sheet to create a complete mini photobook in a matter of minutes. Destination or landmark photos can be pre-loaded so you can personalize the book with quick on-demand photos.

4x4"   4x8"   4x16"

mini photobook™

- Simple software designed to fully integrate with DNP's Hot Folder Print.

- Easily connect images from camera's media card, USB jump drive, or other storage mediums.

- Quickly upload images for desired mini photobook content—whether images are pre-loaded or live shots.

- Next, choose the desired output size of 4"x4", 4"x8", 6"x8" or Super Panoramic 4"x16", and software will auto populate the pages.

- Easily customize, crop, reorder pages, and edit to create the desired layout.
