Party Print™ CONNECT

Seamless Photo Sharing & Instant Prints for Every Event!

Party Print Connect was designed to seamlessly integrate with the Party Print platform and supports all DNP printers. Party Print Connect is a low cost but powerful device that enables photo printing and slideshows at events.

Low cost and compact hardware Party Print Connect allows your customers to operate a Party Print event, with printing and a slideshow, without a laptop or PC

Seamless Integration The user-friendly wizard makes connecting to the Party Print cloud service a breeze. Party Print Connect automatically detects printers, media type and connected displays.

Fast transfer and printing Party Print Connect is powerful with prints starting in as little as 10 seconds.

Photo booth integration and onsite photography
Photo booth software and roving photographer systems can AirPrint pictures to the party print connect, allowing booth the photo booth and Party Print to share a common printer and combine images from multiple systems into a slideshow presentation.

Kit Contents:
- Party Print Connect module with WiFi adapter,
- 110V-240V Power adapter (5V3A USB-C),
